

HIGHWAY 18 BRIDGE REPLACEMENT

Rankin County, MS

Estimated Cost: \$1,500,000

Federal/State Funds: \$1,200,000

This project consisted of the construction of two bridges over Richland Creek on the South side of Brandon at the City Limits. This project was the second phase of the Hwy 18 ByPass Project around Brandon. The project consisted of one intersection design, some road relocation, and the design of two, 5 span bridges. The main bridge which spans over Richland Creek is approximately 230' long and the

secondary bridge is approximately 230' long. These bridges completed the Hwy 18 connection from Interstate 20 to the South side of town.
